

Super Puma helicopter accident – initial report

Safety Flash Published on 6 May 2009 Generated on 12 January 2025 IMCA SF 06/09

The UK Air Accidents Investigations Branch (AAIB) has issued its initial [report](#) into the recent Super Puma helicopter accident.

Although this report relates to a North Sea incident, the relevant issues and the information regarding the gearbox monitoring and warning systems on the helicopter type mentioned could apply anywhere.

IMCA Safety Flashes summarise key safety matters and incidents, allowing lessons to be more easily learnt for the benefit of the entire offshore industry.

The effectiveness of the IMCA Safety Flash system depends on the industry sharing information and so avoiding repeat incidents. Incidents are classified according to IOGP's Life Saving Rules.

All information is anonymised or sanitised, as appropriate, and warnings for graphic content included where possible.

IMCA makes every effort to ensure both the accuracy and reliability of the information shared, but is not be liable for any guidance and/or recommendation and/or statement herein contained.

The information contained in this document does not fulfil or replace any individual's or Member's legal, regulatory or other duties or obligations in respect of their operations. Individuals and Members remain solely responsible for the safe, lawful and proper conduct of their operations.
