

## First aid incident during at-sea fuel transfer – mooring lines

Safety Flash Published on 16 June 2014 Generated on 18 February 2026 IMCA SF 09/14

**The Marine Safety Forum has published a safety flash regarding an incident in which two crewmen were injured by being hit by mooring lines under tension during at sea fuel transfer.**

The safety flash is available on request from <https://www.marinesafetyforum.org>

*IMCA Safety Flashes summarise key safety matters and incidents, allowing lessons to be more easily learnt for the benefit of the entire offshore industry.*

*The effectiveness of the IMCA Safety Flash system depends on the industry sharing information and so avoiding repeat incidents. Incidents are classified according to IOGP's Life Saving Rules.*

*All information is anonymised or sanitised, as appropriate, and warnings for graphic content included where possible.*

*IMCA makes every effort to ensure both the accuracy and reliability of the information shared, but is not be liable for any guidance and/or recommendation and/or statement herein contained.*

*The information contained in this document does not fulfil or replace any individual's or Member's legal, regulatory or other duties or obligations in respect of their operations. Individuals and Members remain solely responsible for the safe, lawful and proper conduct of their operations.*
