

Mooring line operational safety

Safety Flash Published on 16 September 2011 Generated on 12 January 2025 IMCA SF 10/11

The United States Coast Guard (USCG) has issued Marine Safety Alert 01-11 regarding the operational safety of mooring lines, which covers recent injuries and fatalities that have occurred during mooring line operations on vessels in US waters.

The safety alert can be downloaded from the USCG's 'Homeport' portal: [Marine Safety Alert 01-11: Mooring Line Operational Safety](#).

IMCA Safety Flashes summarise key safety matters and incidents, allowing lessons to be more easily learnt for the benefit of the entire offshore industry.

The effectiveness of the IMCA Safety Flash system depends on the industry sharing information and so avoiding repeat incidents. Incidents are classified according to IOGP's Life Saving Rules.

All information is anonymised or sanitised, as appropriate, and warnings for graphic content included where possible.

IMCA makes every effort to ensure both the accuracy and reliability of the information shared, but is not be liable for any guidance and/or recommendation and/or statement herein contained.

The information contained in this document does not fulfil or replace any individual's or Member's legal, regulatory or other duties or obligations in respect of their operations. Individuals and Members remain solely responsible for the safe, lawful and proper conduct of their operations.
