

## Follow-up to Toxic gas emission from transponder (lithium batteries)

Safety Flash Published on 1 September 2003 Generated on 28 January 2026 IMCA SF 11/03

Further to the information provided in [safety flash 01/03 \(Follow-up to Toxic gas emission from transponder \(lithium batteries\)\)](#), Kongsberg Simrad has now updated its transponder safety information.

This can be found at [kongsberg-simrad.com](http://kongsberg-simrad.com) by following 'Products', 'Transponders' then 'Battery Safety'.

Users of alternative systems are advised to contact their own suppliers for product-specific information.

*IMCA Safety Flashes summarise key safety matters and incidents, allowing lessons to be more easily learnt for the benefit of the entire offshore industry.*

*The effectiveness of the IMCA Safety Flash system depends on the industry sharing information and so avoiding repeat incidents. Incidents are classified according to IOGP's Life Saving Rules.*

*All information is anonymised or sanitised, as appropriate, and warnings for graphic content included where possible.*

*IMCA makes every effort to ensure both the accuracy and reliability of the information shared, but is not be liable for any guidance and/or recommendation and/or statement herein contained.*

*The information contained in this document does not fulfil or replace any individual's or Member's legal, regulatory or other duties or obligations in respect of their operations. Individuals and Members remain solely responsible for the safe, lawful and proper conduct of their operations.*
