

NOPSEMA: Near-miss: Fast rescue craft unplanned descent

Safety Flash Published on **29 November 2013** Generated on **20 January 2025** IMCA SF 17/13

The Australian National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) has published a safety flash regarding an unplanned descent (from 23 m) of a fast rescue craft from its davit, whilst crew were onboard.

There were no injuries or damage to equipment.

The full safety flash is available [here](#).

IMCA Safety Flashes summarise key safety matters and incidents, allowing lessons to be more easily learnt for the benefit of the entire offshore industry.

The effectiveness of the IMCA Safety Flash system depends on the industry sharing information and so avoiding repeat incidents. Incidents are classified according to IOGP's Life Saving Rules.

All information is anonymised or sanitised, as appropriate, and warnings for graphic content included where possible.

IMCA makes every effort to ensure both the accuracy and reliability of the information shared, but is not be liable for any guidance and/or recommendation and/or statement herein contained.

The information contained in this document does not fulfil or replace any individual's or Member's legal, regulatory or other duties or obligations in respect of their operations. Individuals and Members remain solely responsible for the safe, lawful and proper conduct of their operations.
